EVoline® Plug

Design meets Function.

The ultra flat design plug (Type F, SCHUKO®) creates space in front of the wall. Fits behind any cabinet.

The plug module „EVoline® Plug“ distinguishes itself by two innovations:
- firstly by its very small construction height which makes it possible that pieces of furniture in front of a socket can be positioned almost flush with the wall and therefore can be placed more flexibly within a room - secondly by its movable plug face.

Due to this mobility although the plug is secure in the socket, very little force is necessary when pulling the plug out of the socket. This is enabled because the EVoline® Plug levers itself out of the socket.

The practical design of this plug with lengthened grip element therefore allows an easy and effortless handling especially by elderly or disabled people.

Please compare with existing situation.

**reddot design award
winner 2011**

EVoline® Port

The Principle

Retractable aluminium housing with connections for power, data and multimedia.
Easy to install.

The Function

Press the rocking cover, pull out at the opening, connect the cable, and retract it.
The rocking cover releases the path for the connected cables.

Nightlight

All versions can be lit and switched.
The light corona will shine discreetly in midnight blue, ruby red, emerald green or soft white.

The Applications

In conference rooms, offices, hotels, sales rooms, kitchens: everywhere, where design and order are in demand.

Honoured with the 'reddot award' for the highest level of design and function

EVoline® FlipTop

Energy and Data „Under Cover“.

Timeless design made of solid stainless steel.
International modules for power,
data and multimedia, are freely combinable.

Cable outlet either as a brush to combat dust, or as
a rubber lip to repel dampness (with the FlipTop
Cuisine).

Opens and closes with multiple bearing snap-ins.
Data cable plugs in without kinks. Can be retrofitted
at any time.

Installed flush with the work top. Special dimensions
on request.

The elegant alternative for office, kitchen and hotel.

1. EVoline® meets Crestron.
For meeting room and conference.

EVoline® Frame Dock

The solution provider.

The Frame Dock is space saving and inconspicuous because of his flat installation height.

The principle

The EVoline® Frame Dock is mounted from the front with 4 lifting clamps for variable wall thicknesses. The screw areas are closed by a cover.

The applications

Flexible deployment in the table, in counter tops, in furniture or in hollow walls. Everywhere, where design and order are in demand.

EVoline® SubDesk

The Innovation.

For office and conference desks,
for work surfaces and furniture.

Optimised outline with rounded form.
Generous cable outlets, being aligned
to function.

Multi-part construction, with pre-
installed cover component.
Accurate simple assembly using
enclosed sawing template.
Cover opens 180°.

Unlimited power, data, multimedia
connections in aluminium profile
to any length: can subsequently
be moved horizontally, and can be
exchanged.

SubDesk - e-place design;
effective, distinctive, unique.

EVoline® Dock

The All-Rounder.

Desks become 'e-places'.
Docking without diversions.
Approachable design.
Modules according to requirements.

1. EVoline® iPhone / iPod Modules

Loading and connecting station for iPhone® or iPod.
Audio or video signals can be sent to integrated speakers, headphones or external playing devices. Integrated buttons for volume control and AUX on / off. AUX input with 3.5 mm mini-stereo jack for external audio source e.g. MP3 player. Remote control can be ordered separately

2. EVoline® data module

USB 2.0 active
4 or 8 port USB hub 2.0 active with external power pack. No more searching for plug-in points under the table. Comfortable connection for multiple USB devices. Administer and recharge several devices. Can be combined with power, data or other multimedia interfaces.

3. EVoline® USB Charger

Charging function with two USB slots. Type USB A without PC connection for all kind of USB devices like: mobile phones, MP3 players, Apple products (iPhone*, Ipad*), video devices and other electronic devices

* TM Apple Computer, Inc.

EVoline® R-Dock

Straight cut design.

Desks become „e-places“.
Quick and easy docking.
Customisable as needed.

Desks become „e-places“.
Quick and easy docking.
Customisable as needed.
Fire resistant aluminium profile.
With its plane, right angled back, this
Profile fits into any 90° niche. Two
profiles placed back to back, present a
clever and a good looking solution for
double sided workplace distribution.

EVoline® T-Dock

Functional, Timeless elegance

Power distribution as a design object.

Small unit for power connection.
For tables, worktops or kitchen islands.

Elegant pedestal made from
stainless steel.
Anti theft installation for
hotel use.
Aesthetic view from any angle.
Can be retro-fitted.
Invisible cable route.

EVoline® V-Dock

Reclaim your space.

Transformation of empty spaces
with functional elements.

At partitions and walls.
Fits vertically:
in corners und niches.

EVoline® U-Dock

Concealed Intelligence.

The innovation for economic high quality distribution.
For integrated mounting solutions or desk cable trays.

Anodized aluminium profile.
Any combination of modules for power, data or multimedia with safety devices, surge and near lighting protection or RCD.
Cabling through Wieland GST18 or Wago connections or built-in cabling.

Versatile mounting options.
A multi-purpose system.

EVoline® Express / Express Data

The simplicity of order.

Modules according to requirements.
Simple to install.

EVoline® Express

Switch, protect, order at the workplace.
Separate, safeguard, minimize electrical risks.

Your insurance against:

Fire – Electric shock – Lightning –
Overvoltage – Short circuit –
Network failure – Loss of data –
High power consumption

System is safety:

Self-extinguishing plastics
Halogenfree
Contacts silver-plated
Welded leads
Protected contacts
Tested and uniquely coded
Circuit interference filter
Protection against lightning strikes
Used in hundreds of ways

EVoline® Express Data

3 power sockets VDE, 2 certified data connections, CAT 6 (Reichle & De-Massari). Data cable including plug produced to customer requirements. Power connection Wieland GST18 plug. Can be combined with all EVoline® Express security and switch modules. Simple elegance offering high functionality.

Cover plate:

Made of black plastic or stainless steel or plastic in RAL colours on request.

Design for the value-for-money basis fittings of your electronic workplace.

EVoline® Vertical

Outstanding design.

A free standing, stable, portable aluminium column with power, data, multimedia connections configured to suit your individual needs.

Height and colour as required.
Cable stored in base.
Ideally placed at event seating or tables.

For professional or private usage, in the office or the conference room.

EVoline® Port Lounge

An unconventional experience.

Limited Edition
Stainless steel – Security glass – Leather

A side table in unconventional design becomes a service point.
Integrated, retractable connections for power, data and multimedia as required.

An eye catcher for hotel lounges, reception or waiting areas.

Alternative leather as required.
Available with or without a ø 60 cm glass top.

EVoline® Caddy

More mobility.

Mobile application with refined technology.

Rollable housing made of aluminium.
Integrated EVoline® Port with cover
silver lacquered or solid stainless steel.
Connections selectable in modules.
Power, data and multimedia.
Cables invisibly organised in
a spacious housing.

Can be opened on both sides.
Upgrades choices close to unlimited.
Efficient protection against lightning.
Efficient interference filter.
Optional LAN-switch.
Compact security and order at all
times.

For offices and conferences progress
with this solution for today's tasks.

Design follows function.

EVoline® Kinetics

A quantum leap in electrical technology.

Switching wherever you wish – without cables, batteries or maintenance.

Receiver 230 V 16 A 2-pole

Controlling
of functions

EVoline® and
EnOcean radio technology
make it possible.

- no firmly installed switches
- no in-wall sockets
- no gaps
- no cables
- no dirt
- low installation costs
- building guided directly from the working place

We are a partner of the EnOcean Alliance,
offering integrated remote solutions.

EVoline® CableManagement

Making a clean entry.

Innovative solutions for problems familiar to everyone.

1. EVoline® Bridge
Solid aluminium.
Screw or glue fixing on all types of flooring.
Orderly cables.
Separate power and data channels.
Dangers of tripping reduced.
Durable quality.
Resistant to UV.
Made to measure on request.

2. EVoline® CordTrack
Robust profile for cable distribution to be fastened to the floor.
Simple access by removable cover.
Separate cable channels for power and data.

3. EVoline® CordTrack Distributor
Distributor for CordTrack Profile.
Four directions simultaneously or as connection for EVoline® WireLane.

4. EVoline® WireLane
Clean cable guidance underneath table.
Simple clipping of cables in separate chambers.
Flexible, rotatable.
In black or grey.
Fits EVoline® CordTrack Distributor.

5. EVoline® WireLane Connector
Securing of cables simply by screwing.
Strain relief.
Cables separated.
Technically sound.

6. EVoline® CableFlex
Bundling of cables as easy as never before.
Various diameters.
Insertion and removal with CableFlex tool.

EVoline® Consolidation Point

Easy distribution.

The heart of
decentral distribution.

EVoline® Floor outlet

The floor outlet is always in the right place. Discreet, modular, flexible, trample proof.

EVoline® Integration Point

Our EVoline Integration Point is a modular system and suitable for technical equipment. Therefore it is possible to integrate required multimedia modules or data distributions direct in or at furniture.

EVoline® Consolidation Point

trample proof, modular built distribution system of energy- and data (multimedia) in hollow and double floors, as well as in suspended ceilings.

EVoline® Modules

A small selection from our module program. You can find more information about our products under

www.schulte.com

Other module versions are possible beyond these examples.

Our specialists can certainly help.
